

Remuneration Report

The Remuneration Report has been prepared on the basis of a new recommendation from the Committee on Corporate Governance.

The BANK of Greenland's remuneration policy is intended to ensure that the Bank's remuneration is in accordance with the legislation applying to Greenland, and the recommendations for corporate governance, and also that the Bank can attract, motivate and retain qualified members of the Board of Directors and management, as well as other employees.

The remuneration policy will ensure appropriate balance between the Executive Management's fixed remuneration and any variable remuneration. The remuneration is intended to ensure long-term value creation. The remuneration policy must therefore promote sound and effective financial management by not creating incentives for exaggerated risk-taking or promoting unilateral short-term decisions to the detriment of the long-term needs and goals of customers and shareholders, as well as the Bank.

Remuneration of the Executive Management.

The Executive Management consists of one person. The table below presents the remuneration of the Executive Management for 2019 and previous years:

The present value of the year's share of the accumulated conditional obligation for the year 2019 is TDKK 271, which is recognised under pensions to the Executive Management. This obligation, which is earned during the 2016-2023 period, may in total comprise 0-24 months' salary. There are no other variable salary elements in the Executive Management's remuneration.
